

The Train is flying down the track. An exciting new radio channel has joined the lineup at AccuRadio.

This isn't high speed rail at 100+ mph.
This isn't a bullet train at 200+ mph.
This is a WiFi Train at the speed of light
– 186,282 miles per second.

The Train officially launched Monday, August 1 at 12:00 Midnight CDT from Train Station AccuRadio.Com, playing a highly appealing mix of Americana music. You can board at www accuradio.com or at www.thetrain.us. Click "Listen" and sit anywhere you'd like. It's important to know when you board The Train that you're the conductor. You can skip songs. You can ban artists. You are the conductor of your Train ride.

Dave "Duke" Sholin and Jonathan Little, two highly experienced, highly successful radio programmers created The Train and are its executive producers. Sholin has a resume that includes: voice over/on-air talent, national programmer, syndicated radio host, and radio trade journalist. Today he works as a music promotion executive. Little's bio includes: voice over/on-air talent, radio programmer & consultant, broadcast media owner/ manager. Today he's co-owner / sales executive at TroyResearch.

In the words of Sholin and Little, "This is a unique collection of musical styles and genres we call Americana Radio – The Train. There's nothing quite like it. It's a one-of-a-kind Train ride!"

They noticed a significant lack of exposure for creative singers and songwriters who didn't fit any particular mold. Many of these artists had little or no voice on radio. If they had radio exposure, some of their best songs never got played. The Train has changed all that. The Train Team researched 3,000 US radio listeners and found that a creative, unique mix of 24/7 Americana music was missing. No longer. The Train is departing whenever you're ready and taking you wherever you want to go.

When you visit www.thetrain.us, be sure to click on the LAB tab. The Train crew would like you to join the Listener Advisory Board so you can offer regular input on the music you hear. If they're missing a song or an artist, let them know. Your opinions will help shape the playlist.

Visit www accuradio.com . Click on Genres, click on Americana, select "The Train" or visit www.thetrain.us and click "Listen". You have a free ticket to ride.

The Train is now boarding at your computer or your smart phone.

All aboard!
